

CALEB At-Large Caucus Application

Today's Date: _____

I would like to be considered for the At-Large Caucus:

Name: _____

Email: _____

Phone: _____

This is the reason I would like to join CALEB:

CALEB At-Large Members are individuals who are committed to the mission of CALEB. These individuals express that commitment through payment of dues and investment of time and energy in one or more of the issues developed by the Board. Prospective At-Large Members will be interviewed by the CALEB Lead Organizer and a member of the Leadership Council, who then may recommend acceptance to the Board of Directors.

At Large Member Expectations

- (a) At Large member should commit to a sustainer's pledge at least \$10 per month (for 1 calendar year) or \$120 a year.
- (b) At Large members should commit to attend the CALEB events.
- (c) Provisions could be made by the At Large Caucus for categories of dues, e.g. regular, student, retiree, low-income, etc., with different amounts of dues. If financial circumstance would prevent a prospective member from honoring these commitments, the At Large Caucus could waive the requirement to pay dues for an individual. An effort to make sure that this process is transparent and clear per individuals should be made.

Relationship to Board of Directors:

Member organizations delegate 2 representatives to serve on the CALEB Board of Directors. Correspondingly, up to 2 At-Large Members may serve on the Board as members with voice and vote. The terms of the 2 members could be 1-year terms renewable annually, or staggered 3-year terms, to provide continuity, if desired.

When the At-Large membership is greater than 2 persons, the At-Large Caucus will meet to name the 2 representatives to participate in Board meetings. The At-Large Caucus would meet together twice a year: once to name a convener, select Board representatives and review agendas; and a second time to evaluate the participation and contribution of the Caucus members.

Training:

It is strongly recommended that At-Large Members take part in the National Training events offered by the Gamaliel Network.
